Jet Maintenance Consulting Corp Announces Expansion at Wilmington Air Park

Wilmington, Ohio – October 22, 2014 –Jet Maintenance Consulting Corp (JMCC) has expanded its training center at Wilmington Air Park to accommodate increased demand for aviation maintenance training. JMCC has been a tenant at the Air Park since 2009 and has seen steady growth in their aviation training and engineering services. JMCC provides services to local and regional airlines including existing tenants at the Air Park.

JMCC has added 750 square feet of training space that includes a classroom where staff will provide instruction on commercial aircraft systems, avionics, structures, or components for airframes built by Boeing 7X7, DC-X (AKA Douglas), Bombardier, Embraer, BAE, and Airbus.

“With several of our customers and vendors located at Wilmington Air Park, this addition will allow us to continue to provide our customers with the resources they need while also expanding our available offerings,” said Joe Merry, owner of JMCC.

In addition to training course development and delivery, JMCC also provides engineering services including: ensuring FAA regulatory compliance, the development of customer aircraft technical publications, and the development of engineering authorizations to ensure compliance with Airworthiness Directives issued by the FAA.

“JMCC has been a complement to the Air Park’s history and they are an important part of our future,” said Kevin Carver, Executive Director of Wilmington Air Park. “We are proud of their growth and we know our other aviation tenants appreciate JMCC’s commitment to air-industry training and education,” Carver added.

About Wilmington Air Park

Owned by the Clinton County Port Authority, the Wilmington Air Park compasses over 1,900 acres with a fully functioning airport, as well as three million square feet of office, warehouse and hanger space. Both runways, (9,000' and 10,701') at the Wilmington Air Park are CAT III capable, allowing full instrument approach for some of the largest aircraft made today. The Wilmington Air Park is home to airlines, aviation maintenance and repair operations, as well as UAV testing and research.

The Air Park provides flexibility in landing schedules, plentiful aprons, on-site aircraft maintenance, a Foreign Trade Zone Designation and a variety of economic incentive programs. The over 40 structures can accommodate businesses of nearly any size and can be used independently or together. The Air Park is located in Wilmington, Ohio, just 40 miles northeast of Cincinnati, Ohio and 35 miles southeast of Dayton, Ohio.

About the Clinton County Port Authority

The Clinton County Port Authority (CCPA) was established in 2004 by the Clinton County Commissioners and is governed by an all-volunteer board of directors. The CCPA is a special purpose government formed to operate transportation infrastructure and lead economic development efforts. Authorized purposes for port authorities include activities that enhance foster, aid, provide and promote transportation, economic development, housing, recreation, education, governmental operations, culture and research.

In 2010, the Clinton County Port Authority gained ownership of 1,500 acres encompassing the Wilmington Air Park, with the assistance of the City of Wilmington, Clinton County and the State of Ohio. Subsequently, the CCPA purchased available adjacent land to bring the total land to 1,900 acres surrounding a two-runway, fully functioning airport.

For executive interviews, success stories and additional media relations services, please contact Beth Huber, Clinton County Port Authority, via phone at 937-655-7040 or email at bhuber@ccportauthority.com; Elise Hafenbrack, Chisano Marketing Group, via phone at 937-847-3743 or email at eliseh@chisano.com.
